## Our Story

Ergochair was founded in 2002 with a single goal: To help people sit better so they could live and work better.

We started by designing truly bespoke chairs for individuals with complex clinical needs. Every chair started with a conversation that changed someone's story for the better.

After two decades and a legion of stories, the same ethos still drives us – and we're on a mission to make ergonomics personal in every seat where performance matters.

# easispec

## How to specify using easiSpec®:

easiSpec® turns chair fitting into a simple, guided process.

Walk through a step-by-step sequence that captures exact measurements and needs, delivering a real-time prescription for a custom-built Adapt chair. The perfect fit... in minutes.

Here's how:

Click this link [easispec.ergochair.co.uk/login](http://easispec.ergochair.co.uk/login)

1

Enter your login details then, from the list supplied, select any requirements or postural concerns that apply to the client before continuing on to the "dimensions" input page

2

The most important part of the easiSpec process is the input of 8 "critical dimensions", plus height & weight, and finally the workstation height. easiSpec will do the rest ...

3

Your inputs power our easiSpec algorithm, delivering instant base chair recommendations. Customise further using our Adaptations menu to add the features you need, exactly where you need them. When you're ready, hit 'Send' - we'll turn your prescription into a quote. No hassle, no guesswork - just precise results, effortlessly.

If you need help at any stage, just call us on: 01454 329210

If you would like to arrange a training session, just get in touch email: [easispec@ergochair.co.uk](mailto:easispec@ergochair.co.uk)

## zento smart

From hot-desks to 24-hour control rooms, ZentoSmart adapts to whoever's in the seat.

As standard Super Memory Foam with a Coccyx Relief Zone and ErgoCore™ air cell supports the person in the hot seat to get the job done.

Twin depth slides, free-float synchro and inflatable lumbar fine-tune support in seconds. Add 4-D arms and the articulated Zsmart Neck Roll for round the clock focus.

Pictured: ZentoSmart in Time 7023 Fabric with 4D Arms and Neck Roll.

- Fits 98 % of users
- Double seat-depth + back-height adjustment
- Certified for 24-hour use

## zento fit

Personalised ergonomic support is just a few clicks away. ZentoFit pairs entry-level pricing with menu-driven ergonomics.

Choose from three backs, three seats and a suite of targeted posture add-ons, sized in minutes with easiSpec.

Memory-foam comfort, inflatable lumbar and independent tilt come as standard; add ErgoCore™ or an articulated neck rest when the task demands more.

One range, endless adaptability.

Pictured: ZentoFit

A - Time 8006 Fabric with Coccyx Cut Out and 3D Trigger Arms

B - Time 8004 Fabric with WS Fold Away Arms

C - Time 8048 Fabric with 3D Trigger Arms

- VE memory-foam seat with depth slide
- Inflatable lumbar air cell
- Heavy-duty asynchro tilt
- easiSpec fit for quick specification

# adapt 200

Handmade to a child, teen or petite adult's exact measurements, the Adapt 200 gives those with smaller frames the freedom bigger chairs overlook.

Light in scale, heavy on support. With this game-changing chair, reading, study, or creativity flows naturally without the distraction of discomfort.

The Adapt 200 pairs personal ergonomic support with a library of Adaptations™ - chosen in minutes via our easiSpec tool.

Pictured: Adapt 200 in Time 4066 Fabric with V Rest and Height Adjustable Arms.

- Bespoke sizing for smaller frames
- Inflatable lumbar and memory-foam seat as standard
- Adaptations™ menu for growth-ready upgrades

# adapt 600

The Adapt 600 range turns individual need into everyday focus with made-to-measure support.

Choose from three seat templates, four back sizes, then customise further from our Adaptations™ library.

Inflatable lumbar air-cell, memory-foam seat, depth slide and free-float tilt are standard, providing personalised, instant comfort.

Pictured: Adapt 660 in Time 1020 Fabric with Neck Curve and 1234T Arms.

- Templates + endless Adaptations™ for a true personal fit
- Built-in air lumbar, memory foam and seat-depth adjustment
- Specify in minutes with the easiSpec system

# adapt v600

Personal fit meets variable contouring in the Adapt V600, building on the trusted Adapt 600 platform with a modular backrest that flexes to every curve.

Hidden tension straps shape depth, breathable panels keep you cool, and adjustable wings wrap gently – combining to steady and support a wide range of postural needs.

Add specialist head and neck supports for full alignment, then refine further from our easiSpec Adaptations™ menu.

- Wrap-around, modular backrest
- Breathable mesh with inner contour straps
- Specialist head and neck supports + full Adaptations™ library

Pictured: Adapt v600 in Heathcote Fabric with Articulated Telescopic Neck Rest Crescent Pad and 1234 Arms.

# adapt 700

Adapt 700 pairs generous dimensions with robust support for users up to 40 stone (250 kg).

A 2.5 : 1 synchronous tilt opens hip and torso angles for better pressure relief, while independent seat and back controls fine-tune posture.

The extra-dense composite cushion keeps you comfortably lifted - no sinking, no pressure points - even through long hours.

Pictured: Adapt 700 in Time 2005 Fabric with Neck Curve and Height Adjustable Arms.

# adapt lift

The perfect position at the touch of a button.

Designed alongside experts in occupational therapy, AdaptLift offers a smooth, powered rise and tilt, easing transfers and making positional fine tuning effortless.

Available as part of the Adapt 600 platform - pair your chosen seat and back size with electronic lift (-4° to +20°), lock-steady MLOCK™ braking and a long-life rechargeable battery.

Pictured: AdaptLift in Time 6031 Fabric with Neck Roll and Height Adjustable Arms.

- Powered height + tilt, smooth and quiet
- MLOCK™ holds chair steady for safe transfers
- Specified in minutes with easiSpec

# intui

Intui brings out-of-the-box comfort to everyday work. A tension-adjustable synchro-tilt keeps movement free and balanced for any size or body weight, while a 60mm seat-slide finds the right depth in seconds.

The contoured, height-adjustable back flexes with you; its ventilated polymer shell and upholstered pad include an inflatable lumbar cell for constant pelvic and lower-spine support.

With just nine components, Intui fits together quickly so you can get busy working in comfort.

- Synchro-tilt with user-set tension
- 60 mm seat-slide depth adjustment
- Flexible, ventilated back with inflatable lumbar support
- Nine-piece design for fast, tool-light assembly

# zenki

## Sit-Stand

Sit, perch, stand - Zenki moves with you. Its gravity-driven seat and back float freely, encouraging frequent posture shifts so you stay energised and supported.

The contoured locator seat, finished in VE memory foam with Coccyx Zone, keeps alignment natural, and an auto-brake engages above 600 mm for steady standing work.

The first true hybrid chair for sit-stand setups, Zenki turns static hours into dynamic focus.

Pictured: Zenki Sit-Stand in Valencia Faux Leather with 4D Arms.

- Gravity-driven free-float seat + back (lockable)
- Contoured perch seat with Coccyx Zone & memory foam
- Auto-brake safety above 600 mm
- Optional footring for added support

# zenki

Pictured: Zenki Perch in Valencia Faux Leather.

## Perch

Shift, lean, reset - the Zenki Perch keeps you poised without the strain of fully sitting or standing.

Its contoured locator seat guides posture with a front pommel and Coccyx Relief Zone, while VE memory-foam padding cushions pressure points.

A gentle forward tilt encourages active alignment, and auto-brake castors lock instantly for safe, steady perching.

- Locator seat with Coccyx Zone
- VE memory-foam cushion
- Forward-tilt mechanism
- Brake-loaded castors for assured stability

# actyv™

## Double Articulated Legrest

Find the perfect position with this double 'bendable' leg support. Adjust pad angle, height and tilt so your legs sit perfectly and circulation flows freely.

A memory-foam layer supports without pressure points, while optional gas-lift columns offer relief at the exact height you need.

Let's build your perfect fit – customise this product to your exact specifications, because proper ergonomic support should be personal.

- Multi-adjustment for precise pad position
- Height & tilt adjustment with optional gas-lift sizes
- Memory-foam as standard
- Custom build available on request

Pictured: All Leg Rests and Ergonomic Accessories are Shown in Canopy Black Fabric.

# actyv™

## Single Articulated Legrest

Set your support where it feels right. Angle this 'bendable' leg support pad with a quick turn of the handwheel, while height and tilt adjustments put the support exactly where you need it.

Memory-foam cushioning as standard ensure comfort, and optional gas-lift columns offer enhanced adjustability.

Make it personal - tailor a custom build to match your unique specifications, because true ergonomic support begins with personal fit.

Pictured: All Leg Rests and Ergonomic Accessories are Shown in Canopy Black Fabric.

- Easy height & tilt adjustment
- Memory-foam layer as standard
- Optional gas lifts for adaptability
- Custom build available on request

# actyv™

## **Split Double Articulated Legrest**

Relief that respects difference. This split legrest lets you angle each pad separately, so one leg can lie flatter while the other gains extra lift - ideal for post-injury or uneven support needs.

Loosen the side handwheel, set each pad, then tighten - height and tilt fine-tuned in seconds. Memory-foam cushioning eases pressure and optional gas lifts enhance adaptability.

Speak to our team about your unique specification and we'll customise this legrest to ensure the fit is truly personal.

- Independent left/right pad adjustment
- Height & tilt tuning with optional gas columns
- Memory-foam pads prevent pressure points
- Custom build available on request

Pictured: All Leg Rests and Ergonomic Accessories are Shown in Canopy Black Fabric.

# actyv™

## Double Legrest

Twin channels, even relief. The Actyv Double Legrest supports both legs side-by-side on a memory-foam pad, while height and tilt adjustments enable the perfect support.

Choose from a range of gas-lift columns that enable fine tuning throughout the day.

Make it personal... speak to our team about customising this product to your unique specifications.

- Dual channels cradle each leg individually
- Memory-foam layer reduces pressure points
- Height & tilt tuning; optional gas-lift heights
- Custom build available on request

### Single Legrest

Our original Actyv support Legrest. Simple, solid, and built to give support in the exact way you need it.

A height and tilt adjustable column pairs with a memory-foam pad to ease pressure, while optional gas-lifts offer an enhanced adaptability.

Need a unique specification? We can craft all our legrests to your custom measurements - because your needs are personal, and so is Ergochair support.

- Adjustable height and tilt for precise positioning
- Memory-foam pad prevents pressure build-up
- Optional gas-lift heights
- Custom build available on request

Pictured: All Leg Rests and Ergonomic Accessories are Shown in Canopy Black Fabric.

# ergo driver

Turn any vehicle seat into personalised support; no expensive retrofits needed. The ErgoDriver's modular air cells inflate independently to deliver targeted relief right where you need it.

Designed with the the RAC, the 3-point harness is easily transferrable between most cars, vans, and trucks, securing a slim memory-foam pad wrapped in breathable Spacetec 3D fabric.

Ideal for individuals or fleet operators who need to maintain productivity, reduce absence, and put driver wellbeing at the heart of every journey.

Pictured in Heathcote Fabric.

- Modular air cells for tailored spinal support
- Independent inflators for precise comfort control
- Universal harness for quick, secure fit
- Breathable memory-foam pad for all-day freshness
