ergo driver

Turn any vehicle seat into personalised support; no expensive retrofits needed. The ErgoDriver's modular air cells inflate independently to deliver targeted relief right where you need it.

Designed with the the RAC, the 3-point harness is easily transferrable between most cars, vans, and trucks, securing a slim memory-foam pad wrapped in breathable Spacetec 3D fabric.

Ideal for individuals or fleet operators who need to maintain productivity, reduce absence, and put driver wellbeing at the heart of every journey.

Pictured in Valencia Faux Leather.

- Modular air cells for tailored spinal support
- Independent inflators for precise comfort control
- Universal harness for quick, secure fit
- Breathable memory-foam pad for all-day freshness
